

RESOLUTION ~~2024~~-2025-7

OPPOSITION TO Mandatory Electronic Identification (MEID) LIVESTOCK TAGS

WHERE AS: The traceability program is incremental. USDA APHIS stated on its website, updated October 11th, 2024 after approving the new rule, that it "is committed to implementing a modern system that tracks animals from birth to slaughter", and

WHERE AS: The cost of EID tags disproportionately burdens small and medium sized independent farmers and ranchers. The USDA rule allows large, corporate-owned herds to be grouped and tagged as one group, creating huge loophole that keep costs low for larger companies, and

WHERE AS: The EID mandate would potentially interfere with price discovery found in traditional markets, thereby furthering vertical integration of the US food supply at the expense of the consumer and independent producer, and

WHERE AS: The EID mandate is far overreaching, intrusive and potentially circumvents privacy laws, threatening the livelihood independent cattle and bison producers, and

WHERE AS: Independent, family owned cattle ranches are of paramount importance to our local economy and to the economy as a whole, and

WHERE AS: The comments received by USDA APHIS in the rulemaking process were overwhelmingly against the new rule, and

WHERE AS: America has the safest and highest quality meat in the world using our current, fully functioning and effective traceability system. The mandated rule claims to be about animal health, but does nothing to prevent or treat disease, and

THEREFORE BE IT RESOLVED: The Rock County Board of Commissioners vehemently opposes the implementation of any EID mandate by the USDA,

ADOPTED THIS 21ST day of January, 2025, at Bassett, Nebraska.

THE BOARD OF COMMISSIONERS:

Celly Glat

Wade D. Hollubach

Jay Smith

ATTEST: Dorinda Bury
